## DETAILED ACTION

### *Drawings*

1. The drawings were received on 1/19/07. These drawings are acceptable.
2. This communication is responsive to amendment and remarks filed 1/19/07.

Claims 1-11 are currently pending in this application. The outstanding rejection of claims under 35 USC 102 (a) is hereby withdrawn. A new action on the merits of claims 1-11 follows below.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Boskamp et al. P.N. 6,995,561 (Boskamp).

Boskamp discloses a multiple channel transceiver array for MRI. Applicant's attention is directed to Fig. 5 and corresponding description. Boskamp uses a circuit 200 to individually drive resonator or coil elements of a volume array 100. Each of the driving signals is controllable as to phase and amplitude. See col. 6 lines 50-64. Boskamp meets all the limitations of the claims at issue.

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Louis M. Arana whose telephone number is (571) 272-2236. The examiner can normally be reached on M-Thurs. Fridays Off.
